Messrs. Ohland,

I have been asked to respond to your recent letter to Director John Baza of the Division of Oil, Gas and Mining regarding the Bruin Point Mine.

To access all public documents we have received from American Sands, go to

<http://linux1.ogm.utah.gov/WebStuff/wwwroot/minerals/mineralsfilesbypermit.php?M0070040>

the username and password to open the documents is ogmguest

We received a Notice of Intent to Mine for the project back in March. Our technical review found several deficiencies, which is a normal part of our iterative permitting process. We notified American Sands of our review in April. They are working on a response at this time.

The page linked above is updated as information becomes available, so it is a good place to check for new activity.

Please let me know if you have any other questions.

Thank you,

Dana Dean, P.E.  
Associate Director - Mining  
Utah Division of Oil, Gas and Mining
